2015-2016 Budget

Budget Development Process

The budgeting process is comprised of five major phases: planning, preparation, adoption, implementation, and evaluation. The budgetary process begins with sound planning. **Planning** defines the goals and objectives of campuses and the school district and develops programs to attain those goals and objectives. Once these programs and plans have been established, budgetary resource allocations are made to support them. Budgetary resource allocations are the **preparation** phase of budgeting. The allocations cannot be made, however, until plans and programs have been established.

The **adoption** stage of the budget process occurs in the month of June each year, prior to the start of the fiscal year on July 1st. The Board of Trustees has the responsibility of adopting the budget and setting the tax rate to support the budget. After adoption, the **implementation** of the budget is performed by the Business Department, with the cooperation of other District administrators. Implementation also includes establishing controls over revenues and expenditures, budget amendments, and informational reporting on the budget.

Finally, the budget is evaluated for its effectiveness in attaining goals and objectives. **Evaluation** typically involves an examination of: how funds were expended, what outcomes resulted from the expenditure of funds, and to what degree these outcomes achieved the objectives stated during the planning phase. This evaluation phase is important in determining the following year's budgetary allocations. The evaluation culminates in the performance of the annual audit performed by an independent CPA firm.

In summary, budget preparation is not a one-time exercise to determine how a school district will allocate funds. Rather, school district budget preparation is part of a continuous cycle of planning and evaluation to achieve district goals.

Budget Assumptions - Revenues

The Administration must make certain assumptions in the preparation of the budget. Assumptions are made for the Average Daily Attendance used in calculating state aid and the percent of tax collections. Assumptions are then calculated and incorporated into the budget drafts. The significant assumptions used in preparing the 2015-2016 revenue budget are:

Average Daily Attendance	22,917 –a one percent increase from 2014-15
Current Tax Collections	99%
Total Tax Collections	100%

A review of the estimated revenue budgets is included in the following section.

Total Budgets – Major Governmental Funds

The budget of Birdville ISD includes three major funds – The General Fund, Debt Service Fund, and Child Nutrition Fund (a Special Revenue Fund). The following schedule presents a comparison of revenues and expenditures for these Governmental Funds.

Other revenue sources or other uses, such as bonds proceeds and transfers out, are included as an addition to the revenues or expenditures where applicable.

Major Revenue Sources

The District receives local, state and federal revenues sources in the operation of its programs. Local property taxes account for the largest local revenue source, amounting to 48% of the District's total budget. Budgeted taxes for 2015-16 amount to \$112,355,461 and is split between the maintenance and operations (\$80,261,799) and the debt service fund (\$32,093,662). State foundation program aid accounts for \$96,063,549 of the total general fund revenue of \$190,600,028. In addition, \$9,194,510 has been budgeted for TRS On-Behalf payments. TRS On-Behalf represents state payments for matching teacher retirement paid for active members of the school district and is in accordance with Gd7f1otate fnta7.3()t No(l(isistn\$1.054gfB

the value of properties of the previous January 1st. Properties are required to be assessed at 100% of market value.

In addition to the TAD's assessed valuation, the Texas Comptroller of Public Accounts performs an annual Property Value Study to determine that the values assigned locally are within acceptable ranges. The state uses the results of this Property Value Study to determine the state funding given to the district.

*The 2015 tax roll information is based on estimates received by TAD in June 2015. Certified values will be received around July 25, 2015. The Comptroller's Certified Value for the 2015 tax roll will be received in the spring of 2016.

Tax Rates

The District levies taxes on properties within the limits of Birdville ISD. The proposed total tax rate for 2015-2016 is \$1.4539 per one-hundred dollars of valuation. The rate is comprised of two components, the Maintenance and Operations Rate (M&O) and the Interest and Sinking Rate (I&S). Tax bills are mailed to the taxpayers on or about October 1st each year and become delinquent on February 1st.

Maintenance and Operations Rate (M&O): Taxes levied for the general operation of the District.

Interest and Sinking Rate (I&S): Taxes levied to pay for voter-approved bonded indebtedness of the District, usually for the construction and equipping of facilities.
